

# The conversion of man to love

poems by Oscar Lepore, 2013

## 1. Spirit and Word

Essence and truth fill reason  
from a glimmer of light, complete understanding is born  
I go out of the gloomy world  
forgetting what I leave behind  
but I could remain word of mouth  
to tell what in the heart it hurts  
a fallen reality imprisons all of us  
like a spider's web or a prison from which you do not escape  
you do not know if on the right or if on the left  
an escape can render sight eternal  
yet something in me happened  
an experience that wraps me more and more often  
Of words, yes, I'm full  
and I would like to fill the whole world with it  
Because I know where it leads, it makes no sense  
and I would like to stop everyone from accessing it  
I would like to bring you to Heaven  
go out together from this deadly cage  
If you trust you will feel renewed

because the true Word is the lifeblood  
I have walked, and with you I walk  
towards a road that will make you happy  
not that the world is wrong  
but without Truth it is dead  
Now I welcome you new lights  
that will help you move through all these fumes  
Come on, do not build on the sand of human thought,  
on golden wings we will fly now  
leave aside all that is insane  
the Truth that vivifies us we will find

## **2. Light in my eyes**

Enter my eyes or Light,  
that all you want to make clear to reason  
Only with knowledge will I have peace  
that will make me from the top beasts  
I'm rude I do not accept  
be the seed without eternity  
I would like to live with blood chosen  
to know how to win the world that pushes me from every part  
I am pulled out of myself  
from those of garbage he has full chest  
in my heart I hear more and more often  
that of immortality I want the intellect to be full  
or drop of the God of omnipotence  
that in the skull you operate without ever stopping  
bring me to perfect omniscience  
that the little man can not ask you  
I come to you or the Divine Spirit,  
because my trust is fearless  
and as the glass is filled with good wine  
your wisdom makes my life proud  
With you from above then I will look  
contemplating with holy judgment from just  
and according to Christ, I will report everything  
because only in him there is glory and pride

### **3. Creation**

Wonderful work  
that God's art brings marvelous image  
fruit trees and grass  
Starry sky and dizzy beauty  
of various and different animals  
rich in abundance  
while the gem, the man  
dominates everything with creativity  
Wonderful treasure that nourishes mind and heart  
finished contemplating  
it's still really all to begin with  
Because of wonderful secrets  
you are hiding  
and to the wise eyes  
you reveal the best  
with love given  
to such a great creature  
reveal with your beauty  
of our Creator the pure image

### **4. Assumed world**

O world of assaults  
that you fill your head with thorns  
I can not stay with you  
I prefer you to transform  
if another man will have you imperfect  
it is not in me that it will be the defect  
for I have fought for your good  
but perhaps another hundred have poisoned you  
Or tell me where you're going  
if you can reason with hindsight  
because impression of foolish emptiness  
you gave me pain now more than once  
Talk about having opened your mind  
but the salt you fill it with is worthless  
for if you do not fill everything with love  
you are the dead, I have no mourning face

Yes, it is love that gives life  
while hate destroys it  
if at first the soul does not make friends  
Tomorrow the lion on her roars  
Now then, listen, will you wake up?  
without God, listen, there is no Savior  
but you bask in a trivial food  
and never think about what the Redeemer promises

## **5. Hell**

I'm talking about hell  
in which the pain is hard and eternal  
I did it to escape it  
and there's nothing useful that he did not say  
But with pain known little awareness  
of what every consciousness basically expects  
for everyone knows that it will be judged  
but of a thousand vanities, then the heart is filled  
Where hatred is law and action  
you can not ask forgiveness, I'm sorry, to the Lord  
How can you get out of it? Then why do you go there?  
Be wise and cunning, get off your troubles now  
Who of love fills the heart,  
he will never see it, pain  
if he has done for himself and for others  
he has already paid his duties well  
but their damned, what compassion!  
Of fire and gloomy their prison  
sulfur and tar and stink to no end  
while for the sufferings one would like to faint  
but dead existence remains without peace  
wrapped and nauseated by boiling pitch  
For what can be done?  
Think of the living,  
and with our actions  
let's make them happy

## **6. Lucifer**

His head was full of pride  
the angel who could not hear the heart  
"above God my throne will be laid  
and also to Him I will be superior "  
But the creature as he can without the Creator  
be something that no longer dies?  
and you would fall from Christ judged  
when you were not prostrated to Him  
Not God, not God, but the unjust will  
I will give the hell a sad reality  
That horrid place you have created  
you and the creatures that are heard to say "cursed"  
How can the angel love hate  
he who was all created with love  
such great transformation gives oblivion  
that changes the fact of our nature?  
It goes back and does not kill us  
in the name of Christ, do not attack us  
right we have to seek salvation  
do not blind us with awareness  
I believe in God and without Him I have no sense  
go out of my life and have absolute respect  
go out or thief of souls, that I do not want to be lost  
that God has filled our breasts with free will

## **7. Pilgrims**

Wonderful garden that was our joy  
prelude blessed of superior happiness  
lost we have you, for our throat  
to be like God, but without His heart  
Now in tears, we sigh  
sad and afflicted, looking for Ciel sereno  
But, Father, we know, we do not forget you  
pilgrims and exiles, will we come back home?  
Do not forget our hope  
of eternal life, wise and blessed  
Let us enter into the ancient eternal dance  
Please return the stolen identity to us

## **8. Annunciation**

I salute you, or beauty all invested  
that your soul is filled with all grace  
Welcome your creator  
and give the world the Redeemer  
For you, the Light will come to you  
Immaculate Truth, Salvation and Peace  
All women and all men follow you  
praying, praying, defeating all limits  
Teach true prayer, with so much wisdom  
that of immeasurable joy gives hope  
turn your eyes to us, let the heart be corrupted  
gives birth to the divine little child in our souls  
with Him we will come out of death  
and of the Ciel we will have opened the doors  
Let your smile be your whole life  
always refresh the image of your face in us

## **9. the evil**

I see you, or badly, and I know you can fill it up  
I have no blind eyes to your infernal presence  
the world has given you too much listening, until you die  
but to me that you are sorry  
you can not fool me  
your arrogance threatens  
but I can tame you  
Believe that love is a trivial thing  
and of violent things, only to speak  
I can not love your doctrine  
elsewhere I turn my heart  
even if present, you do not touch me now  
because only I fill my eyes with love  
but how I sympathize how many are off  
and sins and sins accumulate from the four winds  
because every vehicle you use is used  
and your poison spreads so much  
but I tell you not to be serene

that God will come back to burn all this hay

### **10. Bethlehem**

Blessed night that enlighten the world  
in front of the little baby my heart is setting  
not castles and shorts but stable for oxen  
and intense cold for the king of the Jews  
but You have chosen to be last  
to save even the lowest  
and you can give the eternal crown  
even to the hardest that gives to you  
blessed mystery of the king of the last  
of the simple, the good, please redeem me  
What is complicated only the simple understands  
while the superb towards You is proud  
You start, You, in the smallest way  
and you end badly, treated as a delinquent  
but the angels, in chorus, tell us this  
without you we are nothing at all  
Pastors and wise men before you  
for you neither the last nor the first is rejected  
Blessed that Mother who always had sweet care  
forming with his sweetness, the heart, to the greatest Shepherd  
new Adam and new Eva  
king of a kingdom that no desire promised  
Please pray to us, bring us with you  
coming to the stars, starting from the oxen

### **11. The Herods**

Or ugly Herod who kill us  
look inside you,  
instead of giving us nothing  
you fill your actions with empty words  
and you are only dead guides for our souls  
We as children of you trust us  
and instead you superb poison us  
On what do you found a happy kingdom?  
On the smile of the last

or on some low hearts  
peace?  
But who are you heralds?  
What goodness are you wearing?  
Take care that hot coals accumulate on you  
if you are not repentant to the true law  
Only Sinai, the Gospel and Love  
can you say you have better intelligence?  
But you fools do not want to bend  
because they are the lodges you want to serve

## **12. In Egypt**

Our life among idols until awakened  
pushed in every direction and never lit.  
pulled out of itself, the conscience dies  
and to know and do good loses all science  
Magnificent tombs then dream  
to make your own name big and powerful  
But servants and minors thus enslave themselves  
making of one's soul something that is nothing  
O fools of heart, seek salvation  
the victory with arrogance, I'm sorry, it only gives bitterness  
If eternal tomb you want to do it  
it is charity that your name must be covered  
There is no other way to be immortal  
only love gives wings  
So let us seek wisdom,  
and in the heart of God, always have a room

## **13. Nazareth**

My homeland, my homeland  
returns to being the cradle of the Nazarene  
you who show the way to the nations  
Be always good ground of truth  
But Italy you move on foolish paths  
why do not you listen to the little voices of yesterday  
From the modern world you let yourself be transformed  
you who have made the heart of the earth

Now you are light off  
like a soul in a coma  
save the Gospel try  
or basilica of Rome!  
Return of God's light  
to unite the whole flock  
the popul dispersed mine  
makes that true light increasingly holds

#### **14. Childhood**

O masters of happiness  
children, children, children of good age  
teach us to have a heart that is amazed  
what a marvel of life always keeps  
we are wounded by life  
we must learn from you  
Because sweetness is no longer felt  
from a heart killed by trouble  
Who becomes like a child  
of him is the kingdom of heaven  
Ask the divine child  
healing from all our ills  
let us forgive with true love  
and let us heal from every rancor  
towards ourselves, towards the neighbor  
towards God, for a very pure heart  
and with the sky we will know how to play  
living happy life never banal  
we will then come back to amaze  
feeling majesty of a life that will never end

#### **15. Doctors of the Law**

O great scholars, listen carefully,  
"only when the love of the Lord  
he is full of devotion  
then the truth enters the heart "  
Look for in the Holy Scriptures  
testimony to my words

from the acrid life  
it comes out only with a lot of love  
Of prayer and charity  
one must fill one's life  
because their identity  
only united to others will never be lost  
it is true that knowledge  
feeds reason  
but without wisdom, wisdom  
you will never have a better view  
As high as we can get  
only baptism with fire  
what is superior can reveal  
Ask Christ  
that presents itself to the sight of the soul  
What the Father saw  
it will reveal you sweetly in abundance

## **16. Obedience**

Do not despise any good advice  
currency discerning  
because you are a child of God  
with you His will is fulfilling  
Search for words and events  
the divine wills that must become actions  
Be careful and do not look for sensational things  
the transformations must first be in normal things  
As much as you want  
the inspiration is the good teacher  
do it without straw tail  
slowly doing what the Lord administers  
Do not overdo it  
this is not convenient  
at the possibility of a superior man  
we get there slowly and well  
Remember the sins  
ask abundantly for forgiveness  
so that every illness can be dispelled

and you receive a heart of flesh and good

### **17. the carpenter**

As a skilful craftsman, build your home  
let the soul know, it is like a beautiful church  
with work on it  
you give dignity  
and how you transform it into prayer  
nurturing it to satiety  
With the rule of the monk  
give meaning to your life  
with things that enrich you  
that relieve every effort  
Be your work done with the heart  
in everything you make love  
you will feel relieved  
of what you do sweetly you will enjoy  
Like the wise Qohelet everyone says  
in the work of their hands there is pleasure and peace  
In fact we need  
to have done something  
and in conscience we console ourselves  
when it is good and fruitful

### **18. Death of Joseph**

How hard it is  
lose what is dear  
Discover suddenly  
how much is worth what is normal for the mind  
how much we must  
to our parents  
whose continuous help  
from the many difficulties he pulls us out  
thankful we must be from our family  
pray for it because it is our teacher  
how much duty of having to love them  
they, the image givers  
that our souls must accept from the heart

because from affection to parents  
our life can be blessed  
if you pull yourself out of your base  
your soul will remain sad  
Love what has more value  
they are the people who are important for your heart

### **19. the Baptist**

Repent, and confess your mistakes  
do not be good with your sins  
from this naked life of possessions it will come out  
make sure that you are not stained in your clothes  
Because having and being is not the same thing  
who gives because it is, is the one who has to excess  
dress the naked  
feed the hungry  
make what is too much  
to whom life has impoverished  
know that wealth  
it is in the elevated soul  
you do not have duplicity  
and of justice, make the soul nourished  
You will be ready  
streets you will have straightened  
valleys you have filled and smoothed mountains too  
in the real water desert you will finally have found it  
And then look for the baptism of fire  
Follow the teacher with complete teaching  
I will stay with you for a while  
but the Spirit of Jesus will become like your breath

### **20. Baptism**

Devouring fire that burns  
fill my soul with wonderful lights  
give me the eyes of an eagle, make my breast burn  
You are the Spirit, my beloved  
With you higher and higher I will know how to fly  
looking at everything from higher height

but also as a servant I will know how to love  
because in charity I will have looked for my tutor  
Soave and sweet  
powerful and disruptive  
take me to the mouth of knowledge  
I without God are nothing  
but together with you, angel, I am  
increasingly white, always better  
be worthy of the crown  
destined to reign, serving up to the last person

## **21. Desert**

Only and far  
I do not want noise  
the Spirit that is sweet and soft  
I want to listen with my heart  
divine teaching  
it is done to my nearest intelligence  
and inner transformation  
it sublimates me in superior quality  
my sense is improved  
I discover the gifts of my intelligence  
and how much for humility they dare  
now I love with knowledge  
purify my soul  
make me new substance  
in this desert my name is  
learning of Truth and Love  
The demon tempts me  
the Word supports me  
and even if the fear is so great  
the power of God belongs to me  
Winning on evil  
the angels come to me  
I did not want bread  
and the Spirit nourished me and made me king  
Now I am ready to serve you my Lord  
of Word that saves you have filled my heart

we will do everything new  
and both heaven and earth will be  
came out as a chick from my egg  
in the Sun I will bring what the devil buries

## **22. Come and see**

Come and see  
be with Me  
to those who listen to me  
a king's future is destiny  
Who are you will understand it  
the greatest adventure you will know  
know yourself and God  
it's what I teach in perfection  
You pay attention  
I lead you to sublimation  
Not of fish fishermen  
but of those who want to be better  
with my Word you will be transformed  
and like the angels you will become  
and you will renew people  
sweet and superior quality  
Do not be afraid  
it is only Love that I teach  
it of divine nature  
bring the sign into shape  
I accept those who come to Me  
who already belongs to the Father  
because on you he wants to put the Seal  
of a man who deserves to carry your banner

## **23. Cana of Galilee**

Christ with the soul wants to marry  
marriage of communion  
for endless happiness  
and higher  
From our water  
it turns everything into a better wine

that never ends  
that taste is always fuller  
What can be said  
of the gift of God?  
rather amazed  
I am adoring rest  
As you may wish  
best truth?  
with Christ Jesus  
religion is in perfection  
symbols and action  
prayer and meditation  
Feelings of eternity  
who does superior death  
There is nothing but God's reality  
that never ends  
I really understand  
that here is full blessing  
As a husband is full of love for his sweet woman  
so God marries the soul that is delivered to him  
Do not be afraid, and have confidence  
What is man's life if the heart does not burn?

## **24. Healing**

I was sick before I met you  
incapable I was, even just moving  
Blind who believes he sees with an omniscient look  
in front of you, I understand that I am nothing  
I heard that to many  
you healed from the devil  
voices from the four winds  
say that by word you have a true heritage  
I came to you  
"I throw at your feet  
I am extremely sick "  
and you good, nothing in return you ask me  
healed  
I felt the healing power in me

suddenly healed  
I have proclaimed you King  
Now I am yours  
take me on your way  
the roads of the omnipotent God  
let me see  
Announcement to everyone  
what you did to me  
there are never more mourners  
for those of you whose heart has filled  
eternal happiness  
now I know that I have no end  
if in the others the heart inverts  
to me joys and sufferings make you full and flat

## **25. the Beatitudes**

On the mountain He rises,  
and everyone gives a royal word  
His thought is very sweet  
which comes from a very pure heart:  
Blessed are those who like flowers  
welcome water of Grace  
that comes from them outside,  
of real life their face will shine  
Blessed are those with a good heart  
tears come out looking for heaven  
sweet consolation  
receive  
together with great peace  
Blessed are those filled with meekness  
that everything will possess  
and have great contentment  
Blessed those who end their justice  
their thirst and hunger will have the best bread  
Blessed are those who love  
without exchange  
the judgment will be sweet  
that will be a sweet exchange for them

Blessed are the pure in heart  
because wherever they see love  
of them crown I will make myself do  
because they are My best part  
Blessed are the guardians of harmony and peace  
make My image in My place on earth  
Blessed are the hated and slandered for what is right  
loved by Heaven for a world of greater taste  
If they persecute you for Me  
be happy and happy  
You will have from God "T'amo"  
and you will be My friends  
Be of these  
look for Love  
there is nothing left for it  
that have shown value

## **26. Light of the world**

It is you who follow Me  
to illuminate the world  
have salt in your words and lives  
that my profound Truth be upon you  
You are a seal  
that what I say is important  
be worried be your trouble  
that I hate testimony that is worthless  
of good works filled everything  
because there is no more mourning in the earth  
everyone knows that life does not die  
and that the Love of God is fundamental to have

## **27. Teaching**

Do not hate anyone and you will not be judged  
if you have forgiven your heart, your sin will be forgiven  
Do not be impure but love true love  
wicked desire hates the Creator  
Do not send your wife away  
respect your deal

that if you run behind cravings  
everything ruins what you did  
Never take revenge, give the other cheek  
who asks for gives, gives your substance  
what merit would you have  
if you love only those who love you?  
What do you want?  
not to be out of your scheme?  
For all, pray and also bless  
and then only then will you have real friends  
do not seek compassion  
look at all without presumption  
secretly gives so much  
only by God seeks the boast  
all this is in praise of Him  
this is what he wants to teach you  
in this way you will treasure in Heaven  
between esister and being it is much more than a veil  
do not worry, and leave it to God to provide  
to the things of the world, do not bend your heart too much

## **28. Our Father**

Prayer to God the Creator  
do with love  
call it Father  
sanctify His Name  
will for eternal happiness has He on you  
desire it ardent, knowing what comes then  
on this world His kingdom  
ask for content  
to cooperate with this commitment  
you are well intent  
and material and spiritual bread  
always ask for nourishment  
your life is worth so much  
it is not thrown to the wind  
Forgive and ask for forgiveness  
you will have your good heart towards you

ask to be guided towards the good  
from evil with fear, ask for protection

### **29. the twelve apostles**

I have you there  
above all nations  
together with you I will build  
Church for all generations  
Listen to My teaching  
and all educated  
your behavior is decided  
and be smart sheep  
there will be many wolves  
my Word wins them all  
drive away the demon  
and heal the sick  
The Word of the Gospel  
be proclaimed to all  
between man and God, remove the dark veil  
the new truth is announced  
Do not be afraid  
in God you are superior  
true and pure joy  
comes from having acted for the best things  
and if even you take away life  
know that you are eternal  
for you the glory is full  
and your winters will be over

### **30. to forgive**

As children, I want you faithful to me  
from the heart healed from all your ills  
grudges and even wounds  
with prayer for others to destroy you  
You still do not understand that transformation exists  
that of happiness can receive the coronation heart  
Live slaves of invisible prisons  
that you get each other, with bad deeds

pray until you feel the rancor vanish  
happiness greater than at the beginning can appear  
even if forgiven is another person  
it is up to you, precisely to you, that the heart is renewed  
free for giving condono  
receive mercy as a gift  
you will be saved  
no future to be rejected  
have conviction  
that we need to get out of the convention  
of sadness and crying  
to raise up to God that saves your song

### **31. Thank you**

Thank abundantly  
that no man ever had anything  
to those who have a grateful heart  
We three have never denied anything from Heaven  
of them love falls in love with us  
because their heart restores us  
come to Our presence  
with gratitude of those who received think  
you will not have shame in your face  
it is the love of God that is marked in it  
to whom so much thanks  
We give abundant grace  
Perfect image of sonship of God  
it is to set aside one's self  
We can not drive away  
it is our very difficult creature to be denied  
And if you want to become perfect  
of sufferings and hardships thanks from the heart  
you will have more in abundance  
that will give you joy that will bring the soul into dance

### **32. Pray for everyone**

Maximum sublimation is in prayer  
being close to God is worth more than any action

Pray for yourself and for everyone too  
gives you and the others numerous fruits  
But know how to ask well  
the Holy Spirit that suits you  
and then ask for Truth and Wisdom  
for a bright and intense intelligence  
Do not worry about material goods  
the demands of the Spirit are more real  
So the world of real life will fill you  
and many fish will be taken from your network  
To those who pray life is simple  
and, know, even morir is easier  
Praying for others  
you will fill yourselves with grace  
if you have the other nutrients  
certain salvation you will then have

### **33. To praise**

Make your heart sweet  
to the divine three Persons  
Fill your mood with affection  
from sadness, heal us with apprehension  
that many saints blaspheme  
and to call them beasts is to want them to improve  
but of praises with love  
nobody ever knows us proud  
as a man to a beautiful woman  
as a maiden to her beloved  
God too may have His manna  
that came from the mouth of one of your chosen ones  
How much desire of exchange of love!  
How much desire to live in faith!  
On their head I give My Name  
and I will see what no one else sees  
And if you too want praise  
guide the life of the Gospel  
or know, of the saints God so much enjoys  
and give them the admiration of Heaven

### **34. The lost sheep**

Lost sheep

I come to look for you

you do not know how much your life is worth

but with Me you can understand it

with great love Magdalene cries

and his feet tears Me in his tears

with the sweet hats she dries me

of perfect repentance she is a figure

A consecrated exhibition, a day ahead

of devzion beautiful perfect example

because with nardo he teaches so many

perfect adoration of those of Trinity is temple

Perfect sheep

that deserves to be in the shepherd's arms

the other ninety-nine

they have no better happiness

Convert yourself every day

you love as long as I come back

remember that towards you my pledge

he needs you to give me often sign of love

sheep that are eagles elected

the best of my flock

you fly to high peaks

you know the highest law

### **35. Resurrection of the faithful**

"Lazarus, come out!"

And he came out of the grave

the death that was until yesterday

he lost all his shadow

Who loves the Lord

is destined to resurrect

it is in a life that no longer dies

that can no longer be stopped

"He who believes in Me

even if he dies he will live "

eternal promise is there  
and every man will know it  
higher doctrine  
that gives man immortal life  
it gives better happiness  
never known by those who are trivial  
Try to deserve it  
to be able to contemplate Paradise  
it is holy to say and do  
and there will never be darker on your face  
of certain hope  
your soul is full  
only for good is on alert  
of glory now know the way

### **36. The merciful Father**

How merciful is the Father  
go back to your home  
with him graceful consolations  
on Truth the soul bases  
the rich and satisfied son  
without him he is poor and hungry  
has lost the duty of salvation  
with prostitutes he has lost his soul  
But when you come back from afar  
the Father immediately rushes  
it does not make you wait days  
but suffered from the bad help you  
With Him you have the ring on your finger  
you are fed of fat calf  
to love you open sight and hearing  
it is not a thing of the dead and dead world  
Escape from Babel  
that tightens and kills the heart  
with God only honey  
with him only true promises

### **37. Christ King and judge**

One day your actions  
have salaries  
know that there is judgment  
both by virtue and by vice  
every gesture is registered  
both of charity and of sin  
what you do to the last ones  
listen, everything will be remembered  
in them you do it to Me  
that good are made King  
I will give access to Heaven  
only who is good will be admitted  
If you want glorification  
Just do it to people  
Do not be hard and give each bread  
and a hundredfold will be all that good

### **38. Against the Pharisees**

Or blind to heart  
that you do not know the Spirit of the Law  
in you the Truth dies  
and on you the lion roars  
the soul is full of serpents  
that poison has well filled  
only envy in you rumina  
the blood of the good you have appetite  
What a sentence for hard like you  
that towards love are you always king?  
you take glory from each other  
but you are wrapped up, know, in infernal network  
Get yourself converted to love your neighbor  
and not to fill the Holy Word with a bad yeast  
perfection in the Gospel is, you know, at most  
have the dedicated heart to God

### **39. The vines and the shoots**

I am the true eternal life  
and you the most elected branches

the sap of mine by now you know  
do not put obstacles in Truth  
with prayer united with Me, stay  
and do so much for My glory  
you will have it in it  
and in the divine family you will enjoy joy  
the branch can not bear fruit alone  
I tell you that I always work with you  
wishing others salvation bring truth  
it is all that will remain of this reality  
Big booty having given souls to Heaven  
this beautiful beauty to you reveals to you  
there is no such immense beatitude for man  
that having lived for God an intense life

#### **40. Renounce**

Together with Me, carry the cross  
it is the mouth of the sonship of God  
deny, or faithful, happy meat  
because of spiritual truths you can taste them  
being mine costs little effort  
look who does not, has vanished joy  
in love of God and of neighbor  
look for identity  
very good commandment  
and glory to satiety  
even a thirsty drinker  
there is, you know, reward  
nothing is forgotten from God  
superabundant joy dispensation  
Know that in your own fruit  
there is the greatest consolation  
to whom he gave to everything  
perfect redemption is given  
Do not be melancholy  
of the things of the old world  
know, it's just an anesthesia  
that makes the heart unclean

You are looking for living water  
truth that the demon raptured  
In my mind you find pleasure  
that in holiness that gift is perfect joy

#### **41. Eucharist**

In bread I give myself  
so that you are children of God  
everything with Me condemns you  
because you are so similar to Me  
of divine substance  
your soul is imprinted  
and the palace of my throne  
I want your good heart  
Comunion with Heaven  
be in your soul  
that to My sweet Gospel  
gently bow down  
Whether you are small or big  
from Me you will be transformed  
if you follow My commands  
in angels you will be made  
I speak to you with the heart  
do not despise love of God  
Only with Me you will be able to possess everything  
these My words, know, are true

#### **42. Agony of Gethsemane**

Sin and Love  
fill with fire the Redeemer  
in the garden, of every sinner  
He makes new creation  
Sweat and blood  
escon to rivoli  
for every man who died lague  
and it is craving for devils  
No in prayer to him is near  
Christ yearns for us with His sigh

but few walk straight  
and Jesus only begins to passion  
Tremendous salary  
of sin death  
from the usurer demon  
and from his sad court  
But it is now won  
with the love that redeems  
his domain is off  
along with his rot

### **43. The passion of Jesus**

Death in judgment  
to the great judge of life  
who hates divorce  
with Truth which gives acquired redemption  
flagella and thorns  
to be able to atone for everything  
and so, just like that  
that to be God can be manifested  
hate and love in one is expressed  
it's that cross on him  
that gives salvation to all of us  
the King for His own accepts death  
and of Heaven, He who is good, opens the doors to us  
by immerging our life in His glorious Blood  
it is distinguished from the reprobate peccator  
And however badly it was  
every heart can now be renewed  
it is the center of our faith  
that to good news leads cornerstone  
and what the eye does not see  
at the heart it gives a warm awakening  
We have been saved!  
And we are now eternal  
We are healed from His wounds  
and re-glorious our meat!

#### **44. Tomb and crying of the Madonna**

Life knows death  
and dismay is on every side  
everything seems finished  
what he knew of infinity  
But death can not stop life  
because it escaped him  
followed does not have its own law  
and even the hinges on which she holds  
Our Lady of Sorrows  
the love of his heart cries  
but certain faith has not vanished  
and love will triumph from the Father  
Logic of the living God  
that dismay our every mind  
donate new reality  
to a world that is now renewed

#### **45. Resurrection**

Very high elevation  
of man's existence  
pure image  
of God's substance  
Risen Christ  
light for the peoples  
we lighten the face  
of immortality we are now conscious  
Power of life  
death on you failed  
and with God we will get you  
in eternal light we will shine  
death receives death  
and life grows infinite  
the doors are open from the Ciel  
and the wound is closed of finite existence

#### **46. Ascension**

Ascend humanity

together with the Redeemer  
sublimated in quality  
worthy now of complete healing  
fallen what is trivial  
healed in her innermost self  
in His King he found Christmas  
to find nature in God  
it must now become compliant  
what the Savior said  
following your sweet rules  
he may come out of a gloomy prison  
and one day it will be precious gem  
in the hands of his Creator  
thanks to those whose heart inflames  
that gives it great value to all of it

#### **47. Pentecost**

People of Christ  
transubstantiated into sons of God  
Come back, come back soon  
to this world that has only its own self  
leaven of humanity  
that you say the truth  
receive the power  
and awaken the conscience of the world  
it wants you off  
but you, Church, are the real fold  
shake the world like the wind  
do not have a senile  
in the Holy Spirit it is your strength  
explains Love in Truth  
that in a nutshell the man fades  
from the bleak blindness  
overturn the schemes of so many people  
who can not go against the current  
Be calm in your humility  
because it is worthy of virility  
You are Mother and Generator

your children lead to the Light  
pasci, or Pastora, the precious flock  
always bring it to the Divine Law

#### **48. The consecrated**

Or heralds of the Light  
bring peace to the world  
you that the soul nourishes  
that consecrate your lives to this  
Keep the man steady  
to the Gospel you proclaim  
turn the heart into emerald  
giving hope that you have  
Pray for us all  
that fall the false and dirty gods  
of good works make us amazed  
that towards the Ciel will be kidnapped  
Be holy  
you what holiness you will enjoy  
of charity observants  
and love the world filled  
Pray for every true good  
until our Lord reigns  
because even the demon holds  
every true happiness that the world dreams

#### **49. Heaven**

Immense Ciel of stuffed beauty  
colors and dance, light and happiness  
existing world, albeit otherworldly  
of hearts' expectations you are true reality  
Of your language  
I careful student  
I'm running to you fast  
with the words of which I was grazing  
I know I have a lot of treasure  
but I'm not someone who thinks of gold  
to be with the children of the Light

it is this, just this, my true and sweet peace  
Ready already I am  
to join you soon  
joined to those friends  
so my heart rejoiced  
and to see the kingdom of Love  
it is my greatest design  
I have the pledge of God's will  
and now I only want the true dream

### **50. The Trinity**

Highest Trinity  
I prostrate you with happiness  
superior to all creation  
sublimate it with Your redemption  
in the Holy Spirit  
we find every sense  
we children of His intense  
and ineffable wind  
perfection of sanctity  
which has three persons in God's form  
you teach holy charity  
of which only the heart is nourished  
and in You everything of immense is illuminated  
that your creation shines from your truth  
or let me nourish you from Your wisdom  
that very high truth enters my heart  
I'm here to love you  
You who love me first  
I want to give you praise  
you have satisfied all that I long for
